

**CONFIDENTIAL**

MG / 291

# **SERVICE MEMORANDUM**

MGF/35

7 December 1959

CYLINDER BLOCK DRAIN TAP

MAGNETTE (Mark III)

'MGA'

'MGA 1600'

The illustration in the Driver's Handbook is incorrect, as turning in the direction of the arrow would in fact close the tap.

A correction to the Handbook will be issued in due course and reprints will carry the revised illustration shown below.

Turn the tap in  
the direction  
of the arrow  
to open
